

Hertford County Community Flood Observation Survey

This survey is for residents to assist Hertford County and SWCA Environmental Consultants to document past floods in the county. The data collected from residents will help the county understand where flooding occurs and how floods have affected the community. The county will use this information to help identify priority areas to conduct flood resilience projects.

Scan me with a smartphone to fill out the survey online!

Observations of flooding from Hurricane Floyd or flooding not associated with hurricanes are particularly helpful. Your survey response should only describe one flood event in one location. For additional locations or instances of flooding, please submit additional survey responses.

Please provide the location where you observed flooding*

Address: _____

Other location notes:

Please provide the date of your observation* (Exact, approximate, or range)

Please provide the time of your observation

How extensive do you think the flooding was when you observed the flooding?

- Localized – Confined to a small area on one or two properties
- Moderate – Affecting several properties in one area
- Extensive – Affecting a large number of properties and multiple areas

How deep do you think the water was when you observed the flooding?

- Less than 1 foot
- Between 1 and 3 feet
- Above 3 feet

How much higher did the water reach at this location during the event?

- This was the highest
- Less than 1 foot higher
- Between 1 and 3 feet higher
- Over 3 feet higher

How often does this type of flooding happen at this location?

- It has only happened once
- Rarely (no more than once in ten years)
- Regularly (every few years)
- Frequently (one or more times per year)

Did you have trouble accessing any of the following during this flood event? (Check all that apply)

- Emergency services (fire department, ambulance, emergency shelters)
- Workplace
- School
- Medical facility
- Essential supplies (groceries, household items)
- Gasoline
- Clean water
- Electricity
- Phone or internet service
- Government facility (such as post office or agency office)
- Recreational facility (such as a park or community center)
- None of the above
- Other

If you checked any of the resources above, please share any details about why you were not able to access them here:

Additional information about this flood event: Please include any specific storm names, flooding types (storm surge, rainwater, wind, king tide, etc.), length of time water persisted, damage to structures or property, and any other relevant details.

Please provide your name (First Last - e.g. Jane Doe)

Please provide your email address

This will allow staff to contact you with any follow-up questions about your submission.

If you would prefer to be contacted by telephone please provide that here

This will allow staff to contact you with any follow-up questions about your submission.

(_____) _____ - _____
